The following paper contains an error.

Wentao Liu, Jie Chen, Cheng Li, Chen Qian, Xiao Chu, Xiaolin Hu, “A cascaded inception of inception network with attention modulated feature fusion for human pose estimation,” The Thirty-Second AAAI Conference on Artificial Intelligence (AAAI), New Orleans, USA, Feb 2-7, 2018.

The caption of Figure 6 was wrongly written as:

*A two-stage pose estimation architecture constructed by the multiple iterative stage strategy. The proposed blocks are stacked to build the pose estimation model.*

The correct caption should be:

*The joints are divided into three groups, and the proposed cascaded joint network is used to predict the groups sequentially.*
